New Year's Eve Gifts

Did you know I provide witchcraft consultations to help you make positive changes to your life?

I had no idea what I would write for a January newsletter and then I realized I have lots to share with you for New Year's Eve to help you kick off a good 2025. So in this newsletter I share some of my personal rituals to bring in the new year and make it a good one.

It's always a good idea to start the New Year with a clean house. On the Eve I like to do laundry and deep clean (ish) our home so that it's prepared for the blessings the new year will bring, and so I can wash away any "bad luck" from the previous year.

In addition to this, one of my favorite traditions to share is a very simple prosperity ritual. On the eve of the new year, place the largest denomination coin outside your front door. You can put it under a mat if you'd like. On New Year's Day, go outside and bring that coin into your home. Don't spend it. This is a simple folk practice of drawing money into your home on the new year and set the precedent for prosperity to come inside and stay.

LATEST CUSTOM SPIRIT BEADS & AMULETS

Creative Corner

I adore making these custom spirit beads! I spend time in divination to determine the stones and talisman appropriate for your need (and willing to work with you). Then I hand-craft, bless, and consecrate each set in ritual. The middle image is one of my St. Christopher Travel Protection Amulets, which is blessed and consecrated in a 9 day ritual before it coming home to the person for whom it'

Knitting Project!

Winter is a favorite crafting time for me and knitting is its own kind of magic. I finished knitting this “leaves” cowl and here it is on the blocking pads, drying, before I seam the ends together. This is made with 100% peruvian highland wool, and I’m sharing it with you here because I’m proud of it!

New Year Magic

A RITUAL TO MANIFEST YOUR WISHES

Originally, I planned this ritual to be part of the Moon Rituals subscription service. It became necessary to end that service, but I still want to share the ritual with you here.

NEW YEAR'S EVE WISH BOX RITUAL

For this ritual you will need a trinket box that locks with a key. You can decorate this trinket box however you like, or buy one already decorated. Choose or make up to 9 charms to represent what you want for yourself for 2025. You will also need incense, up to 9 dried bay leaves, a sharpie, a lighter, fire proof dish, and the master key you made from the ritual from the [December newsletter](#).

On New Year's Eve:

Cleanse all your tools by smoking them with the incense. It is best to ask the spirit of the plants within the incense to assist you in this and to thank them for their work. Place the 9 charms representing your wishes into the box. Write your wishes on the bay leaves, one per leaf. Ask the spirit of Bay to assist you in your purpose.

Place the bay leaves in the box and lock it. Speak a prayer over the box that you be prepared to receive your wishes, and that when the timing is right they will be made evident in your life within the next year. On New Year's Day, tap your box three times with your Master Key, focused on all your doors opening for you. Open the box. One by one, hold each bay leaf in your hand and focus on your wish, Ask the spirit of Bay to bring your wish to you, then burn the leaf in a fire safe container. Once all the leaves are burned, go outside and toss the ashes to to the East. Leave an offering under an old tree of wine or milk in gratitude. Keep the trinkets in the box until each wish is fulfilled. When all your wishes are fulfilled, do something creative with the trinkets (it's up to you!) to honor the spirits and to keep the evidence of your magic in sight.
